## CALCULATING FREIGHT ZONE

Step 1: Please use the zone chart to the right. Locate and circle the first three digits of your zip code from the destination zip code column to determine your freight zone.

Step 2: A freight cost by zone table is located on the front side of the order form.

### Why we now sell 48 lb Bags...

We strive to overfill our bags of seed. As such, we have had to switch to selling 48 lb bags in order to avoid the shipper overweight fees and save our customers additional freight costs.

★If ordering 5 or more bags, please call us at  
607-566-9253 for motor freight savings.

★No shipping costs on 1/4, 1 and 10 lb units.

★**FREE SHIPPING on orders of 40+ bags**

Call for motor freight quote on orders of 5 or more bags and **SAVE!**

## The best performing varieties!

Green Haven carries only the best performing open pollinated seed. With over 25 seed varieties available including organic options, we are your source for O.P.

We not only encourage individuals to start their own seed banks but we will assist. Whether you choose to grow O.P. to begin seed saving or simply for the benefits of O.P., we are sure you will be happy with your choice to use open pollinated.

## What our customers are saying...

We tested our O.P. silage the first year we grew it. It was the highest quality corn silage test we have had in seven years. The Protein, TDN and NEL were all higher and yield was similar to the hybrid.

**Scott Lepley**

**Cogan Station, PA**

**David Bach—MN**

Wapsie did better than my hybrid last year. The deer ate the O.P. over the hybrid. It was 1.5% higher protein and higher test weight.

**Leon Notsch—MN**

We had our Wapsie Valley measured at 160 bushel per acre.

There is no comparison in corn bread made with the O.P. corn versus hybrid corn. You can carry the ears in your arms like stove wood.
